Portfolio and Pre-Observation Submission Guide

Stand-Alone School Age Center

This submission guide was created to assist you in completing the pre-observation information that is required to be submitted prior to acceptance of the portfolio. This information is for a stand-alone school age child care learning centers.

PORTFOLIO COMPLETION SCREENS

When all standards are complete, as indicated by the green check marks, the “Submit Portfolio” button is enabled.

• Before selecting the “Submit Portfolio” button, please go back and review your classroom information and teacher class assignments in Standard 1 to make sure they are up-to-date and current. This information will carry over to the Pre-Observation Information Form and will reduce the amount of time needed to complete your pre-observation screens during the submission process.
• After you select the “Submit Portfolio” button, a notification box will appear, please take the time to read the directions and indicate your readiness to submit your portfolio by checking the two boxes “yes”.

• Once you answer yes to both questions and select “Portfolio is Ready to Submit,” the portfolio will become read-only and cannot be updated or changed. Your structural quality points will be based on the evidence contained within the portfolio.

• Only teachers who are included in the portfolio will be eligible for any cash bonus based on your star rating. If a new teacher joins your program within the 10 day window after the “Portfolio is Ready to Submit” button has been selected, they can be added to your pre-observation information screens during the next step of your submission process. However, they cannot be added into the portfolio and so will not be eligible for any bonus until your next re-rating, even if their classroom is observed during the on-site assessment.

• Please take note of the following guidance if your portfolio type is a Required Reassessment or a Request for Reassessment:
  o If this is a Required Reassessment Portfolio and you do not complete the steps within the 10 calendar days your rating will expire if the portfolio is returned and your star rating expiration date has passed. At this point your portfolio will revert to a Reapplication Portfolio. If your rating expiration date has not passed, your portfolio will be returned and you can re-submit it prior to the expiration date.
If this is a Request for Reassessment Portfolio and you do not complete the steps within the 10 calendar days and your anniversary date has passed, you will receive an automatic check-in and not be eligible for a reassessment until your next anniversary. If your rating anniversary date has not passed your portfolio will be returned and you can re-submit it prior to the anniversary date.

- If you need additional guidance regarding the 10 day window you can contact your technical assistance consultant through your local child care resource and referral agency. For important information about how this deadline could impact your current rating refer to the Impact Flowchart on the Quality Rated Website located in Training at the bottom of any Quality Rated screen: http://gristest.decal

- When you are ready to complete the submission process click the "Portfolio is Ready to Submit," button at the bottom of the notification window.

NOTES:

BLACKOUT DAYS SCREEN

When you click on the "Blackout Days" Tab, a screen appears that contains important information that should be reviewed carefully before proceeding. The screen also shows a calendar interface where you can select your blackout days. The calendar is a reflection of the full 90-day window in which the observation can be conducted.

- Blackout days are those days when your program is open, but you are not operating your typical schedule and so the Assessor(s) would be unlikely to see a “normal” day if they came then. These could include days such as parent/family conferences, photo day, holiday celebration, field trip, or some other unique event.

Legend: **Yellow** - Portfolio Completed, **Green** - Open Date, **Red** - Blackout Day, **Gray** - Cannot Select, **Dark**

Up to **five (5)** blackout dates may be selected by clicking the date in any of the **green** boxes on the calendar. The selected dates will change to **red**. If you change your mind simply re-click on the **red** date and it will return to **green**.

- Notice that all **gray** and dark gray dates are days that are not eligible for an observation and so are not available for selecting as blackout days.

- **Green** dates are eligible for observation and are available for selecting as blackout days

- **Red** dates are your selected blackout dates.
• If you do not wish to select any blackout days, click the box shown to the right.

Under the calendar interface is a comment box that can be used to enter any information that you feel would be helpful for the assessor team to know about your program. Type your comments into the text box.

• Inform the assessor team of any information regarding your program that would be necessary for them to know in order to quickly schedule the observation.

• Include important dates such as when your program may be closed due to no children on-site, for example: summer closing dates, spring break (if children are not present), public school holidays that may affect your classrooms etc.

• It is important to let the assessor team know when children typically arrive at your program so they can determine the best time to begin the observation. For example, let the assessors know if the children are located on-site during the school day and simply walk to the out of school time room, or if they are transported to your program, listing the time they typically arrive.

You can save the information you have added to this screen by clicking the “Save” button. You can come back later and make changes if you wish.

• Notice that Saved successfully will appear on the screen.
When you are satisfied with your responses you can check the box to indicate that you have completed this section.

☐ Check this box when you have identified your blackout days or indicated no blackout days will be chosen. Uncheck this box to make changes.

**IMPORTANT:** Once the portfolio and pre-observation information has been submitted to Quality Rated, you will not be able to change your blackout dates!

CLASSROOM DETAIL SCREEN

When you click on the **"Classroom Details" Tab**, a screen appears that contains important information that should be reviewed carefully before proceeding. The screen also pre-populates the information and number of classrooms you entered in your portfolio for Standard 1: Classroom Information.

- Each classroom is listed separately with an icon. When you click on the icon it will open a pre-observation sheet for that classroom and you will be able to enter the required information.
- Another icon will be showing. This icon takes you to the directions that allow you to upload your classroom schedule, **stand-alone school age programs do not need to upload a roster**. This icon will not yet be activated, as indicated by the pale color. After you have opened the pre-observation sheet for the classroom the upload icon will become active, as indicated by the darker color. You will now be able to upload your classroom schedule.

- You will also be able to see the Environment Rating Scale (ERS) to be used to assess each of the classrooms listed. The scale used for each classroom is determined by the age group that you selected for each classroom in Standard 1 of the portfolio.

Below the classroom list you will see a section that asks you to identify how your program is set up. We need to know this information to determine how many assessors should be assigned to complete the observation at your program.

**PROGRAM SETUP**

Which statement best represents your program (select one and hit SAVE):

- **A)** This school age program operates with separate and distinct classrooms where the groups of children are supervised by one or more staff and they generally do not mix with other groups throughout the day. They have all the materials they need in their self-contained classroom, but may mix for snack and at the end of the day as numbers are decreased.
- **B)** This school age program operates as one large group housed in a gym/cafeteria, or other such large space. The children may be grouped by ages and they can rotate through other optional spaces such as an art room, computer room, music room, playground, etc. or through different play areas set up in the cafeteria or gym. There is one lesson plan for the whole group and staff work with all children throughout the day and the children are often in the same space or mix freely.
- **C)** If neither option above best describes your setting, use the space below to briefly explain how your program operates.

- Click to enter the required information for each class and continue the submission process.
PRE-OBSERVATION SHEET

When you click to enter the pre-observation sheet for a classroom, a screen will appear that will allow you to enter the required classroom details. This sheet consists of three sections requiring information relating to your operating hours, teacher information, and student information. The following information is required for each classroom:

- Current operating hours.
- Verification of teacher information assigned to the classroom (carried over from the portfolio).
- The language a translator would need to speak if the teacher(s) speak a language other than English to the children for most of the day.
- The maximum number of children you allow at one time (this may or may not be your licensed capacity) as well as the number of children currently enrolled in the classroom.
- The birthdates of the youngest and oldest child and if any children have any identified disabilities or special needs.

**Section One**

Allows you to add information about the operating hours for the classroom. The start and end hours have been pre-populated from DECAL’s Child Care licensing database, but you can change the hours as needed for each classroom (if applicable).

**Section Two**

Allows you to verify the teachers assigned to the classroom and determine whether or not a translator would be required during the observation. The teachers that were included in Standard 1 in your portfolio will be carried over to this section and will be listed here. You have the option to delete or add a teacher as necessary.

**PLEASE REMEMBER:** Even if you add a teacher now, if they were not also listed in the portfolio their name will not populate back to the portfolio, and they will not be eligible for any cash bonus based upon your rating.
Section II: Staff Information

The teacher(s) associated with this classroom in the portfolio appear in the list below. If the teacher(s) are correct select their primary role from the drop down box. If the teacher(s) listed are no longer associated with this classroom they can be deleted and a new teacher added. To delete a teacher click on the red trash can. To add a new teacher click on the Add Teacher box and follow the directions on the screen. All teachers listed in the portfolio will appear and any can be selected. You also have the option to check “Other” if you have a new teacher who was not included in the portfolio. You can add the new teacher’s name and primary role. Please note: include any student interns or classroom volunteers who regularly work with the children and would likely be present in the classroom during much of the 3 hour observation. In addition, part-time staff members who come and go frequently should be listed, such as “floaters” or other regular staff members who provide extra help or breaks for classroom staff.

1. Click here to add a new teacher to the classroom.

When adding a teacher to the classroom a notification box will open asking you to select the teacher and identify their role. You will be able to select a teacher from those included in your portfolio.

1. If you have hired a new teacher within the 10 day window after you selected the “Portfolio is Ready to Submit” button, you can add them to the classroom at this time. Remember, this will not add them to the portfolio.

2. Click to add the teacher to the classroom.

1. Select teacher as “Other”
2. Select the teacher role
3. Type the new teacher’s first and last name
You will now see this new teacher listed in your staff information for the classroom.

The next part of this section will allow you to notify Quality Rated if the assessor team would be likely to require a translator during the observation if the classroom were randomly selected to be assessed.

- You will see a question as to whether the teacher(s) in the classroom speak mostly a language other than English to the children throughout the day, not just for a special learning time (such as when a foreign language teacher comes into the room for a quick lesson).
- Checking “Yes” to the question tells the assessor team whether they will need an interpreter in this classroom to capture the language being spoken to the children.

Do ALL teachers in this classroom primarily speak a language other than English with all the children?

○ Yes  ○ No

- If you select yes, you will have the option to select the language spoken to the children during most of the day.

If you answered YES to the above question, please select the other language spoken to the children most of the day from the drop down box to indicate a translator will be required if this classroom is randomly selected for observation.

- If the language that you need is not listed in the box you can choose “Other”. This will prompt you to type in the desired language.

If 'Other', please specify:
When you have selected the language the section will appear on the screen as shown below.

Do **ALL teachers in this classroom primarily speak a language other than English with all the children?**

- Yes
- No

If you answered YES to the above question, please select the other language spoken to the children **most of the day** from the drop down box to indicate a translator will be required if this classroom is randomly selected for observation.

**PLEASE NOTE:** If a translator is required for the observation, the observation window may be increased in order for Quality Rated to secure an individual who can fluently speak the language required.

**Section Three**
The last section requires you to enter data about the children enrolled in the classroom. It will be helpful to have this information ahead of time for each classroom so that it can be entered quickly for each room.

**Section III: Student Information**

- Maximum number of children allowed in the classroom/group at one time:
- Number of children currently enrolled:
- Birthdates for the children in the class:

- When adding the birthdates for the oldest and youngest child in the classroom you will use a calendar interface. Click on the icon and a calendar will appear. You will click on the calendar to add the birthdate.

Type the applicable number in each text box.

If you add the number of children with identified disabilities, check the category of disability most applicable.
